Career Objective

Motivated Computer Science Engineering student seeking opportunities to apply technical and creative skills in real-world projects. Passionate about software development, problem-solving, and continuous learning. Looking to gain practical industry experience while contributing effectively to organizational goals.

Education

Dronacharya Group of Institutions, Greater Noida

Bachelor of Technology in Computer Science Engineering

Aug 2023 – Jul 2027

Technical Skills

Programming Languages: Java, JavaScript, C

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

Core CS Subjects: Data Structures, Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems

Soft Skills: Problem Solving, Teamwork, Communication

Projects

Employee Management System

React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

- Developed a full-stack Employee Management System to streamline employee record management and HR operations.
- Implemented secure JWT-based authentication and role-based access control (RBAC) for Admin, HR, and Employee roles.
- Built employee CRUD functionalities for efficient creation, updating, viewing, and deletion of employee records.
- Developed an Attendance Management module with check-in/check-out tracking and attendance monitoring.
- Implemented a Leave Management Workflow enabling leave requests, approvals, and rejections through role-based permissions.
- Designed and integrated RESTful APIs using Node.js and Express.js for seamless communication between frontend and backend services.
- Utilized MongoDB for scalable data storage and applied MVC architecture with middleware-based route protection.

AI Fitness Tracker Application

React.js, Node.js, MongoDB, Tailwind CSS

- Developed an AI-powered fitness tracking application for monitoring calories, workouts, and daily fitness goals.
- Implemented secure user authentication and profile management.
- Built food intake and workout tracking modules for personalized fitness insights.
- Integrated AI-based food image analysis for calorie estimation and nutritional tracking.
- Designed a responsive UI using React.js and Tailwind CSS for mobile and desktop users.
- Developed backend APIs using Node.js and MongoDB for efficient data handling.

Achievements

- Selected for Infosys Springboard Internship 7.0.
- Participated in IDE Bootcamp Phase-II, 2025.

Certifications

- Java Certificate – HackerRank.
- Introduction to HTML, CSS, and JavaScript – Coursera.
- Data Structures and Algorithms Training.
